

# Cyber Acoustics solutions designed for education

Cyber Acoustics is a leading manufacturer of EdTech for all classroom environments, be it in person or virtual. We offer a wide range of headphones, headsets, microphones, speakers, and webcams designed to meet strict demands at prices that fit within budgets. Our EdTech products are based on years of experience and testing in the classroom, and are strong, durable, and easy to clean. We specialize in headsets and headphones for students that might not be the best caretakers. Our product experts will help you find the right solutions to meet all your classroom communication needs.

Also ask us about our no-cost headphone and headset recycle program for schools!

The CA AC-104 and AC-204 headsets are lightweight, versatile, built to last, and prove that quality does not have to mean expensive.

The AC-4000 series headsets are durable, easy to clean, simple to use, and feature smaller ear cups, making them perfect for younger children.

**Common Features:**

- No volume control on the headset to remove confusion for younger students. Volume is adjusted on the computer or connected device
- Easy to clean leatherette ear pads
- Plug and play

We asked teachers what the top three problems are with headsets and headphones in their classrooms. We solve them all.

## Chewing

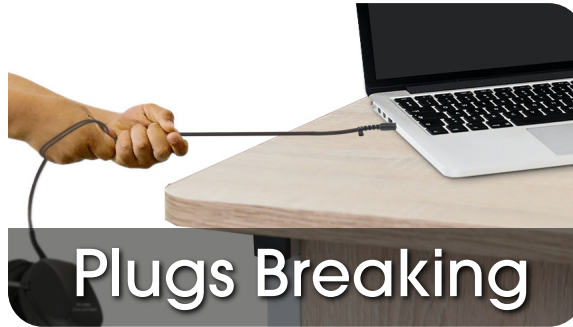

“Not only is it frustrating for teachers, but it’s dangerous for the kids!”

**Cyber Acoustics headsets** feature tangle-free, ultra-durable braided TuffCords that can withstand even the toughest chewers.

**TuffCord**

## Plugs Breaking

“It can cost over \$100 to get a broken plug out of a Chromebook.”

**Cyber Acoustics 3.5mm plugs** have internal reinforced steel alloy pins that ensure they won’t break off inside the Chromebook.

Flexible 3.5mm Adapters Available for Additional Safety

ACA-6-20

If the headset cable gets pulled or bent this adapter reduces the stress on the device speaker/headphone jack, keeping it from easily getting damaged.

Available in packs of 20

## Earcup Stitching

“The kids pull at them, and they just fall apart.”

**Cyber Acoustics** easy-to-clean leatherette earpads are double stitched internally for improved durability.
